

SUBJECT: Directive 2002/95/EC- Electrical and electronic equipment - Restriction of use of certain hazardous substances

With reference to Directive 2002/95/EC, we hereby declare that none of the following substances: lead, mercury, cadmium, hexavalent chromium, PBB (Polybromobiphenyl) PBDE (Polybromodiphenylether) and deca BDE (Decabromobiphenylether), are intentionally added in the materials manufactured and sold by Rhodia Polyamide Engineering Plastics in Europe under the trademark TECHNYL and TECHNYLSTAR.

Furthermore based on our knowledge of the manufacturing process and information provided by raw materials suppliers, we would do not expect these substances to be present in our final products. Analyses for these chemicals are not routinely performed on these products. Although they are not intentionally added each trace of lead, hexavalent chromium and mercury if present as impurity in the components supplied and used in the production is under 0,1% and traces of cadmium if present as impurities are under 0,01%.
