November 20, 2008

**RE: Ryton® PPS, REACH, SVHC, Intended Release**

Dear Ryton® PPS Customer,

Thank you for your query which we have received.

Chevron Phillips Chemical Company LP ("CPChem") is well informed of the REACH<sup>1</sup> legislation and has taken the necessary measures to continue its commercial interests in the European Union as appropriate.

**Contact Information**

We would appreciate if you could provide us with the REACH primary contact through our URL link <http://www.cpchem.com/enu/primaryContactForm.asp> or by filling out the enclosed contact information form.

CPChem will continue to communicate with customers and suppliers in an effort to provide necessary updates related to the pre-registration/ registration process of substances.

**Pre-Registration**

Pre-Registration started on June 1, 2008 and ends November 30<sup>th</sup>, 2008.

Our Belgian affiliate, Chevron Phillips Chemicals International N.V. ("CPCI"), is the central European office handling REACH matters for CPChem and has pre-registered all relevant substances as Importer/Manufacturer under REACH.

**Ensure that your supply chain is protected**

If you are a non EU customer with potential interests in the European market and you may be affected by the REACH legislation, we draw your attention to the fact that CPCI's registrations only cover the sales of CPCI in the EU.

CPChem therefore recommends that non EU customers pre-register or ensure that their EU importers pre-register their substances according to the REACH regulation in order to secure their supply chain into the EU.

**Article**

If you are an Article Manufacturer outside the EU, you may have obligations which are specified in Article 7.33 and the entries in Annex XVII of REACH.

**Vicente Santa Cruz, PhD, DABT**  
Director, International REACH  
Compliance

## SVHC<sup>2</sup>

Based on current and available information, the product Ryton® PPS does not contain any Substances of Very High Concern (SVHC) as listed on the candidate list published by the ECHA as of 1 September 2008.

We have no intention to modify the composition and any presence of SVHC is purely incidental and unintentional. We do not use SVHC in the process, nor are they a part of the raw materials used to manufacture Ryton® PPS.

## Intended Release

Ryton® PPS does not contain substances with intended release.

If you would like more information regarding REACH please visit our website on <http://www.cpchem.com/enu/REACH.asp>.

If you have any further questions, please contact me directly or send your query to [REACH@cpchem.com](mailto:REACH@cpchem.com).

Sincerely,

Vicente Santa Cruz, Ph.D., DABT  
Director REACH Compliance
